How to play

Tic-Tac-Toe

Players	Time	You need
2	2 min	A pencil

Goal

Get three of your marks in a row: across, down or diagonally.

Rules

1. One player is X, the other is O. X goes first.
2. Take turns drawing your mark in an empty square.
3. The first to complete a line of three wins. A full board with no line is a draw.
4. Ultimate variant: your move decides which small board your opponent must play in next. Win three small boards in a row to win.

Swap who starts after every game, and tick the tally at the bottom of the sheet.
